

PNL is pleased to announce that Marc Ferries and June Yi have joined the company.

Marc Ferries, P.E., M.B.A.

Vice President of Oil, Gas and Chemical Industries

mferries@projectnavigator.com

*10497 Town and Country Way
Suite 830
Houston, TX 77024
M: 281.755.7957
T: 713.468.5995
F: 713.468.4515*

Marc is a Civil/Environmental Engineer with over 30 years of experience. Prior to joining PNL, Mark managed Site Remediation and developed Exit Strategies for large portfolios of environmentally impacted sites for BP America and the El Paso Corporation.

He has implemented innovative treatment options, pursued risk-based site-specific standards, and negotiated allocation agreements at many multi-party sites.

Marc has built solid relationships with State regulatory authorities in Texas, Louisiana, Georgia, Montana, California, Nevada, New Jersey and New Mexico, as well as U.S. EPA Regions IV, VI, VIII, and IX.

June H. Yi, P.E.

Program and Operations Manager

June is a Chemical Engineer with 20 years of design, construction oversight and Project Management experience in remediation engineering, groundwater and industrial wastewater treatment, and process engineering.

She is technically insightful and excels in applying both her engineering and construction oversight experience to all design and construction and operational stages of each project. Her goal is to always deliver solutions that are most cost-effective for all phases of the work.

June has assisted clients in the oil, gas, chemical, aerospace, waste management, and government sectors.
