

FOR IMMEDIATE RELEASE

## **Project Navigator, Ltd. (PNL) Joins Verdantas, LLC**

I am proud to announce that as of April 1, 2024, Project Navigator, Ltd. has joined Verdantas, LLC.

This union will allow for the integration of PNL's strengths and capabilities with more than 1,200 environmental scientists, engineers, and technical experts in more than 50 offices throughout the United States. This new collaboration is guided by a shared vision—to innovatively solve our PRP clients' challenges, especially in the arena of CERCLA and RCRA regulated remediation projects.

PNL's partnership with Verdantas opens new avenues to serve our long-standing, loyal PRP clients. PNL can now offer, as an operating company on the Verdantas platform, an expanded suite of project management and remediation services from the desktop to the field. Equally importantly, this collaboration empowers the PNL team, in partnership with Verdantas' nationwide resources, to tackle a broader array of projects...supported by increased capabilities in data and information management and visualization.

We recognize the importance of the relationships built over time with our clients. We assure you that this transition will not impact the quality you expect from our team. Our management of your projects will continue to be led by the same dedicated project leaders and teams you know and trust. All contact information, including addresses, emails, and phone numbers, will remain unchanged for the foreseeable future.

The entire PNL team is grateful for the trust you have placed in us over the last 27 years. Our integration into Verdantas marks a significant step forward in upholding that trust. It ensures not only the continuation of quality services but also an expansion of our expertise and capabilities.

Should you have any questions or if there's anything you'd like to discuss regarding this transition, please feel free to reach out to me directly. On behalf of the Project Navigator Team, I look forward to continuing our "project coordination services journey" with you and working on an expanded scope of projects in the future.

Sincerely,

A handwritten signature in black ink that reads "Ian A. Webster". The signature is written in a cursive, slightly slanted style.
